We will be showcasing our Services and Solutions capabilities on:

Managed IT Services

Offering full spectrum of Remote Infrastructure Management service assuring peace of mind. Choose from a range of our managed IT service portfolio which are custom built for your business and can scale to your business needs. With our managed services, we can enhance your IT experience, and provide value to your business. Your technical support challenges will be handled competently and efficiently; allowing focusing your valuable time on managing your business.

Our managed services ensure proactive monitoring, increased first time resolution and reduction in average response times. This in turn improves end user satisfaction, thus adding value to your IT.

Offshore Development Center

Hire dedicated resources to build your own multi-technology proficient team of skilled manpower. Our ODC houses team of talented developers who use methodologies, processes, tools and technology to cater each clients' specific business needs. This serves as an offshore extended arm of your business which reduces significant costs and lowers management headaches.

Microsoft Dynamics AX

Offering industry specific custom ERP and CRM solutions implemented on premise, hybrid or in the cloud. Microsoft Dynamics AX is a comprehensive ERP platform that is geared to help you connect with global customers, business partners and subsidiaries via standardized, automated and streamlined business processes, in a way that ensures success. That combined with vast experience and exposure of our team, you are sure to get all the benefits of a tier 1 ERP solution.

ByteASSIST | Hosted Helpdesk Solution

An ITIL aligned private label help desk solution in the cloud that seamlessly blends with your IT operations and is ready for immediate use without any upfront infrastructure investments. A Web-based hosted helpdesk with Private Label support that addresses critical IT and support areas like incident and problem management, SLA management, asset management, knowledge management and more. Either run the help desk to offer your end users a flexible, powerful and private label help desk platform or opt for outsourced Tech support to our experts working 24x7x365 with just one click for all support operations; while maintaining your company's brand.

ByteTECH | Dedicated Support Team

Hire industry certified and experienced dedicated support engineers who work as an extension to your company or complement your current IT team to extend your support options.

Available round-the-clock; a dynamic and talented technical workforce – ensures your customers have the support that they need, any moment of the day or night. Hire our experts and Build your own dedicated support team to reduce costs and complexities of internal operations. Hire skilled and industry certified IT professionals at an on-going monthly fee and augment your current IT staff with our qualified IT experts.

Planning to attend? Book your appointment now and reserve your **Free CeBIT Ticket** for the event. Visit www.devitpl.com or email us at presales@devitpl.com to learn more.
