Meet Us @ Hall6 | Stand D-04 CeBit 2014 | Hannover | Germany

We are glad to invite you at CeBIT 2014 where we will be showcasing our services and capabilities on:

Offshore Development Center

Our Offshore Development Center provides state of the art software development facility in India with skilled manpower.

Our ODC houses team of talented developers who use methodologies, processes, tools and technology to cater each clients' specific business needs. This serves as an offshore extended arm of your business which reduces significant costs and lowers management headaches.

Managed IT Services

Our support can ensure your Peace of Mind knowing that we will keep your IT running 24x7. With our managed services, we can enhance your IT experience, and provide value to your business. Your technical support challenges will be handled competently and efficiently; allowing focusing your valuable time on managing your business.

Our managed services ensure proactive monitoring, increased first time resolution and reduction in average response times. This in turn improves end user satisfaction, thus adding value to your IT.

ERP-Dynamics AX

Industry specific custom ERP solutions implemented on premise, hybrid or in the cloud.

With vast experience and exposure of our team, you are sure to get all the benefits of a tier 1 ERP solution.

Microsoft Dynamics AX is comprehensive ERP platform that is geared to help you connect with global customers, business partners and subsidiaries via standardized, automated and streamlined business processes, in a way that ensures success.

About CeBIT:

CeBIT is the world's largest ICT conference and exhibition that unites world's leading IT masterminds, experts and IT solutions providers at one place. It is focused around encouraging innovation and rewarding solutions in the field of information and communication. Over the years, CeBIT has emerged as the most prominent platform for companies and individuals to initiate deals, form synergistic partnerships and tap opportunities to network with top influencers of the ICT industry.
